J. C. HOLLAND & SON

Architects and Superintendents

Phone 1251

Mr. Holland herewith presents a partial list of the buildings erected by him during the past twenty-five years, thus demonstrating the large practice built up by a faithful adherence to his clients' interests, and the success now crowning his efforts. Of late years his son, B. A. Holland has been associated under the above firm name.

Marion
Colby
Osborne
Lyons
Fairbury, Neb.

While state architect, many of the state institution buildings were erected under my care, and while in the same capacity for the A. T. & S. F. R. R. had charge of designing several eating houses, and depots and for twelve years special architect for the western division of the W. F. & Co. Express Buildings.

The erection of the buildings mentioned above runs into the millions of dollars, and we point to them with pride as a lasting recommendation.

We respectfully solicit correspondence for any one contemplating the erection of buildings of any kind of nature. Reinforced concrete and fire proofing a specialty.
